MEMORANDUM FOR THE RECORD

SUBJECT : Agency Interest in the Bureau of Public Roads (BPR) Land at Langley -- RECD Contact with GSA Official

REFERENCE: Memorandum for the Record, #OL O 5846, dated 6 October 1970, subject: DDS Briefing of GSA Officials

1. On 27 October 1970, the undersigned met with the Deputy Commissioner, Walter C. Moreland, Property Management and Disposal Service, General Services Administration (GSA), to determine the status of the GSA excess property survey report on the subject property. (As indicated in the referenced memorandum, the report was completed and was to be submitted to appropriate BPR officials.)

2. Mr. Moreland advised that the GSA report of survey had been submitted to BPR officials who were currently reviewing its contents. Mr. Moreland anticipated that the BPR review would not take more than a month, however, no deadline had been established. He assured the undersigned that we would be advised as soon as BPR takes a position. Their position can be either to concur with the report or to contest its findings. (Note: The Agency is not privy to the report; however, it can be inferred that a substantial portion of BPR land has been designated as excess.)
